

# ICB FINANCIAL ACCOUNTING UPPER INTERMEDIATE LEVEL

## BUSINESS LAW AND ACCOUNTING CONTROL (BLAC)

This subject introduces students to essential business principles, covering both the unspoken and written laws that govern economic and legal landscapes. Students will explore micro and macroeconomics, the key participants in the economy, demand and supply dynamics, and the impact of inflation. The subject also provides an overview of the South African legal system, fundamental contract law, and key business laws. Personal finance management topics include investment decisions, retirement planning, general investment options, life and disability coverage, short-term insurance, and debt management. Students will gain insight into accounting systems, focusing on internal controls, auditing principles, revenue and receipt cycles, acquisition and payment cycles, payroll, asset management, and bank and cash cycles. Additional topics include inventory control, analytical review processes, auditing for unusual fluctuations, and the basics of liquidation and executor accounts.
